Healthy Pet Workshop

Desert Dangers

Presented by: **Andrea Hilden, DVM**

Dr. Andrea Hilden

Southern Arizona is a wonderful and unique place to live and play, especially with pets! However, there can be hazards to your furry companions that you may not have considered. In many cases, there are things you can do to help keep your pets safe and healthy. Please join us on January 12th for more information!

We aim to answer questions such as these:

-  Should my pet get snake and/or toad aversion training? Where do I go for this?
-  What kind of parasites are found here and how can I keep my pet from getting them?
-  Why is it such a big deal to have my pets (including indoor cats) vaccinated for rabies?
-  My pet is really scared during thunderstorms. What can I do?

We're bringing the workshops out into the community!
Free & open to all pet owners (Please leave pets at home).
